Cloud & SaaS Fundamentals

Product Adoption & Enablement

◆ WORK EXPERIENCE

Senior Technical Success Manager Snyk

04/2026 - Present

Denver, CO 80111

- Own a portfolio of 9 enterprise accounts representing \$5M+ in combined ARR, driving adoption, retention, and expansion across complex AppSec environments.
- Lead Quarterly Business Reviews (QBRs) with technical and executive stakeholders, translating security posture and product usage data into actionable roadmaps for joint success.
- Build and execute Mutual Success Plans (MSPs) to align customer security goals with platform adoption milestones, reducing time-to-value and minimizing churn risk.
- Rapidly ramped on Snyk's technical AppSec platform (SAST/SCA/container/IaC scanning), partnering with customer engineering and security teams to drive developer-first adoption.
- Developed customer-facing expertise on Evo Agentic Development Security (ADS), Snyk's newest AI security offering governing AI coding agents, MCP servers, and AI-generated code, positioning customers to safely scale agentic development adoption.
- Partner with Sales and Renewals teams to drive on-time renewals and identify expansion opportunities, surfacing upsell and cross-sell signals through account health monitoring, usage analysis, and ongoing discovery conversations.

REALTOR – The Surges Team Compass / Coldwell Banker

08/2017 - 04/2026

Denver, CO 80111

- Owned the full customer lifecycle across 225+ transactions and \$136M+ in volume, driving onboarding, expectation-setting, and long-term relationship management.
- Coordinated multi-party workflows across lenders, inspectors, title teams, agents, and contractors to ensure seamless transactions and on-time execution.
- Built 1- and 3-year strategic roadmaps as a principal broker on The Surges Team - covering marketing, revenue targets, and operational KPIs - increasing sales volume by 47% per transaction from our previous brokerage.
- Drove adoption and client utilization of new Compass digital tools and platform features (e.g. Private Exclusives, Compass One), ensuring smooth onboarding and improved client outcomes
- Managed high-pressure escalations involving financing, inspections, and contractual disputes, resolving issues quickly while maintaining trust and momentum.

WORK EXPERIENCE

Sr. Technical Product Manager Sling TV (Dish) – Sling IT

04/2016 - 08/2017

Denver, CO 80202

- ◇ Managed the SDLC for the Java microservice team, aligning stories to TDD, paired-programming, & UAT, and leading implementation of 22 microservices into production & maintenance phases.
- ◇ Engaged with enterprise stakeholders like Visa and Sprint on cross-functional delivery and microservice integration, achieving key milestones in our joint customer success plans.
- ◇ Served as a technical product expert and adviser for strategic roadmap prioritization of new features in the SlingTV retail ecosystem.
- ◇ Produced forecasts, KPI reports, and status updates, and presented them to CIO, CTO, and CEO executive stakeholders.
- ◇ Collaborated with DevOps and engineering teams responsible for secure and scalable microservice deployment, CI/CD pipeline controls, and environment hardening.
- ◇ Translated stakeholder needs into 1,000+ actionable user stories, personally testing each for acceptance criteria and functionality.

Practice Analyst Royal Dutch Shell P.L.C. – IT Services & Operations

04/2015 - 04/2016

Houston, TX 77002

- ◇ Assisted in rollout and training various IT verticals on operational improvements to the Shell IT Service Management Framework.
- ◇ Performed a strategic review of the Physical Environment Management Process and produced a detailed improvement plan.
- ◇ Delivered 3 'Physical Environment Management' Process enhancements under the 2015 year-end Integrated release.

Project Manager & Application Delivery Analyst Royal Dutch Shell P.L.C. – Downstream IT

01/2013 - 03/2015

Houston, TX 77002

- ◇ Audited physical environment security controls at Shell LOBPs to ensure adherence to IT security standards and mitigate risks.
- ◇ Communicated project status, issues, risks, and dependencies to executive internal stakeholders via PowerPoint & MS Project.
- ◇ Delivered 6 projects under the Shell Project Delivery Framework as Project Manager, with combined project budgets over \$500K.

Project Management Analyst Royal Dutch Shell P.L.C. – Trading IT

06/2011 - 12/2012

Houston, TX 77002

- ◇ Created and presented KPI dashboards, forecasts, risks, budgets, and delivery updates to CIO/CTO stakeholders in Shell Trading.
- ◇ Redesigned and maintained a financial tracker for the Trading IRM Program with a 2-year budget of \$7.5M.
- ◇ Built and maintained the SharePoint sites and Risk Logs for the IRM Program and its 5 subsidiary projects.
